(54) METHOD FOR DRAWING OPTICAL FIBER AND DEVICE FOR DRAWING OPTICAL FIBER

(57)Abstract:

PURPOSE: To constantly control the diameter of an optical fiber to enlarge its strength.

CONSTITUTION: A device for drawing an optical fiber is equipped with a drawing oven 10 for drawing an optical fiber base material, with flanges 18 and 19 placed below the drawing oven 10, and with a support bar-covering member 21 for connecting the flanges 18 and 19 to each other to cover a preform-supporting bar 13. A gas-charging port 16 and a gas-discharging port 23 are attached to the flanges 18 and 19, respectively.

LEGAL STATUS

[Date of request for examination] 26.10.1999

[Date of sending the examiner's decision of rejection] 01.04.2003

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]
